Bettie,

I'll be back on January 2nd and available for discussions.

Happy Holidays,

Judy

Subject: TES

Judy,

I have a couple of questions that I'd like to discuss with you. The first is with regards to the designation of the groups for the TES. Currently the designated groups based on FTC tar are: 0-2.9 mg; 3.0-5.9 mg; 6.0-12.9 mg; and > 13 mg. The groups were selected originally based on the market sales. However, in terms of light, ultra-light, full-flavored, etc., are these designations the most appropriate?

In addition, I'd like to discuss the upcoming ACCORD study. I will plan a meeting for the first of the year and hope that you will be able to attend.

Happy Holidays,

Bettie
